

CORRIDOR/SERVICE PANELS – TH13 413/ TH13 403

Technical Manual

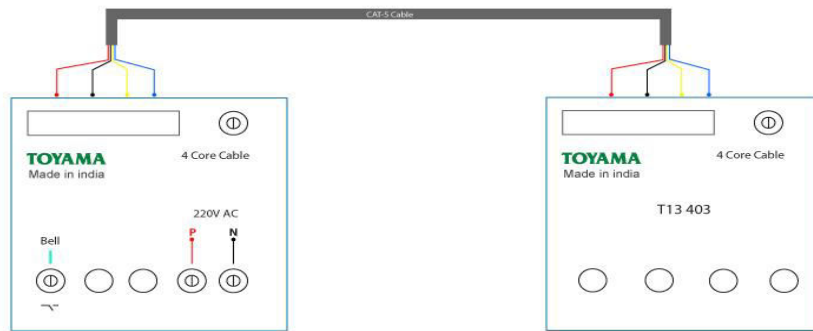

DESCRIPTION:

Toyama Touch Art switches are intelligent control devices that provides convenient and comfort to the user. Usage of SMD components not only ensures reliability but also makes the product highly compact for its functionality and features. The use of SMPS (Switch Mode Power supply) makes the Touch Art switches operational across countries from North America having 127V supply to European/Asian countries having 230Vsupply without any field setting. The various functions can be performed from the wall unit or hand held IR remote.
