TOYAMA Controls & Systems (P) Ltd. Bangalore

We pave the way for smart living spaces

Value through Innovation

Toyama has been pioneering innovation in the field of Electrical switching for more than a decade. Born in the Silicon Valley of India, we take inspiration from the innovative spark of Bengaluru to indulge in our passion for creating simple to use but intelligent products for smart living.

Having been the first in india to introduce in the year 2002 remote controlled switches, We have worked on cutting edge technologies ever since.

We are the first in india to introduce ZigBee wireless network switches in 2014 and Bluetooth wireless switches in 2015. Our product portfolio boasts wireless and standard Touch switches, scene schedulers, energy saving apps and much more that can help control an entire house or office using a smart phone.

Adapting best technologies

- ✓ Four way control operation
 - Touch on glass
 - IR remote
 - Smart Phone
